DESCRIPTION

The property comprises a detached warehouse building of traditional steel portal frame construction with an even pitched roof having translucent roof lights and an eaves height of approximately 31' 2" (9.50 m) rising to 53' 3" (13.53 m) at the apex.

The unit has low level brick / block work with profile metal cladding over and a concrete floor. Two roller shutter doors lead directly off the yard and other features include high bay sodium lighting.

There are two self contained office blocks, both are built within the warehouse and have independent external access. Both are of three storey construction and comprise a variety of rooms or varying sizes with sealed unit double glazed windows (all having external security shutters), gas fired central heating to radiators to a number of the rooms.

To the front of the unit there are approximately 46 off street car parking spaces.
